**SMILE TODAY
SMILE TOMORROW**

Our goal is to only use textiles that are sustainable and safe from a human-ecological perspective. We aim to have only **STANDARD 100 by OEKO-TEX®** certified textile products in the collection by 2022.

(STANDARD 100 by OEKO-TEX®, 2076-312 DTI)

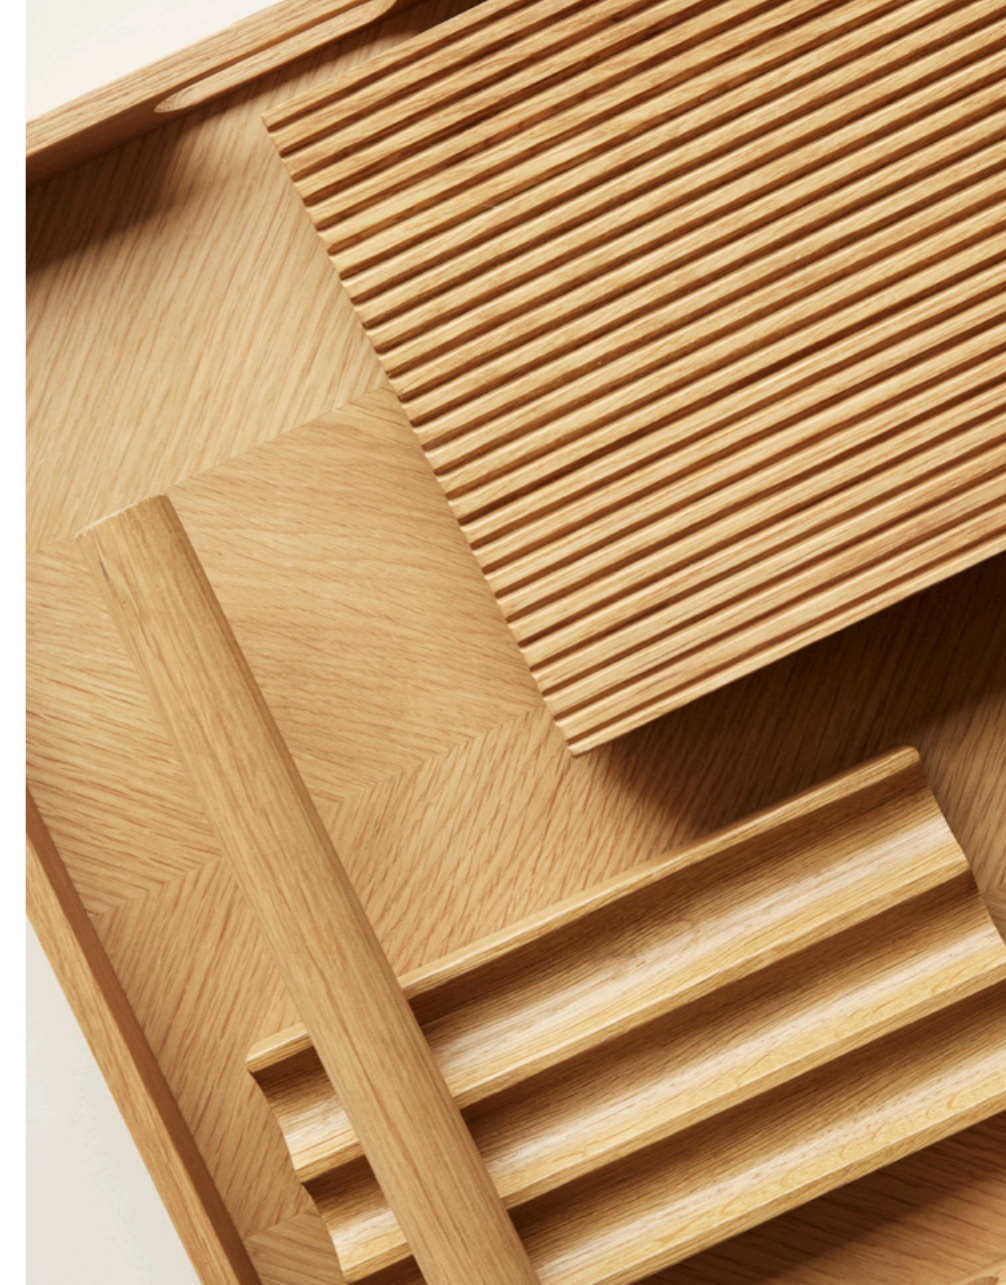

The Hübsch Lifestyle series consists of hand cream, dish wash and hand soap, and is produced in Denmark and certified by **ECOCERT®**. The products are completely free of parabens, synthetic dyes and minimum 95% of the plant content is organic. Furthermore, the packaging is 100% recyclable.

Hübsch has an ambition of using only sustainable and traceable wood. Since 2020 all new designs and reproductions are made with **FSC™** certified wood.

Look for our FSC-certified products (FSC C157880)

hübsch care

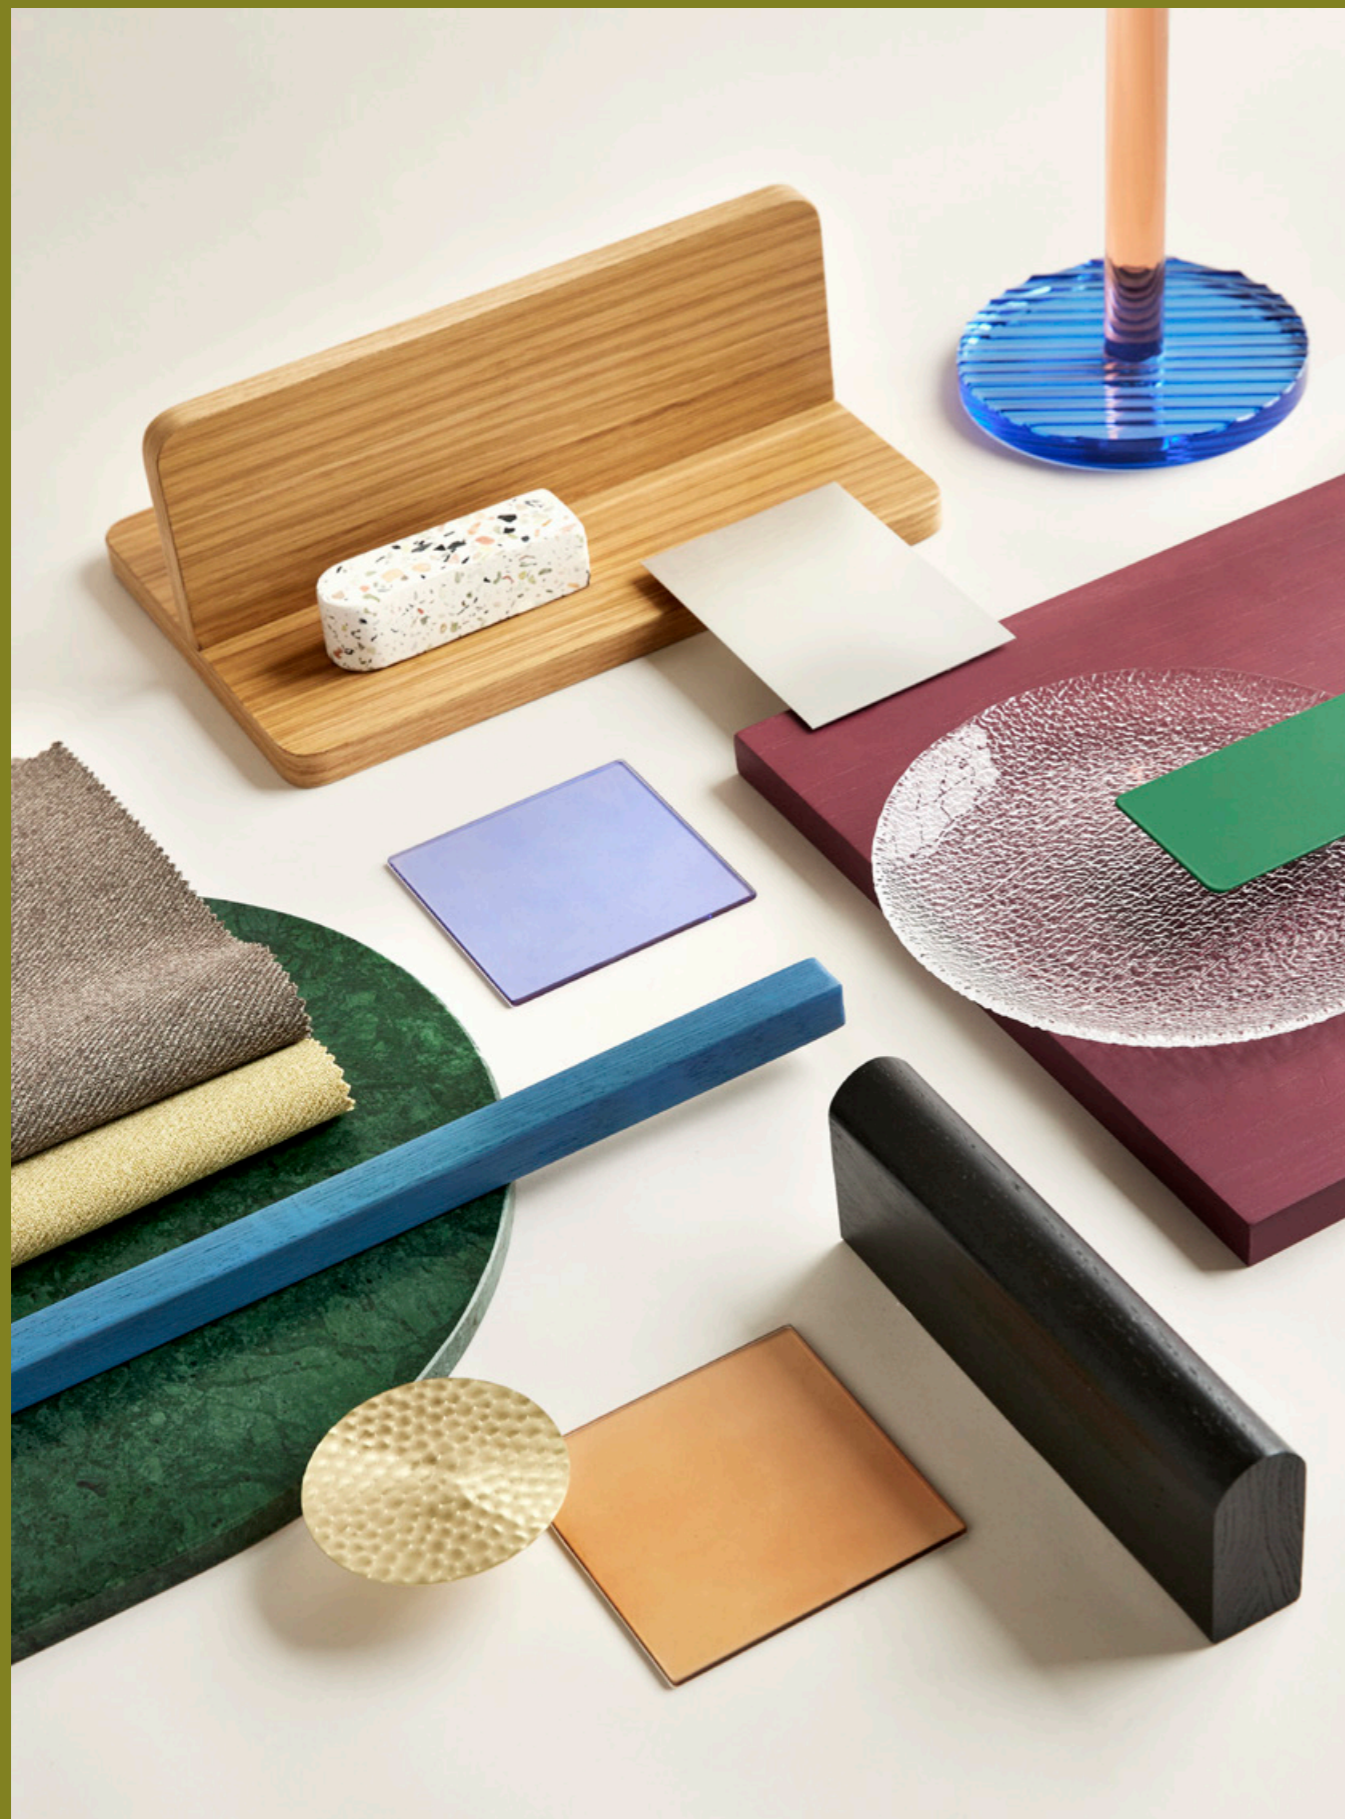

We recognise that everything we do as a design company has an impact on the environment.

That is why we at Hübsch constantly try to find new and better ways of designing and developing our products, continuously focusing on approved and sustainable materials, placing high demands on ourselves and our partners in terms of fair and healthy working conditions and supporting our local communities.

We know that we are not saving the world, but we try to do better, day by day, to reduce our ecological footprint and to be proud of what we do.

We care about tomorrow, today.

autumn/ winter

This year has been a turbulent year for all of us, so being able to present you with a new collection is therefore something we've been looking forward to with excitement.

This collection was designed during a global pandemic, and let us just say there is a first time for everything. Suddenly, the world as we knew it was flipped upside down - and we had to find inspiration in new and different ways.

But to look at the bright side, this gave us a new perspective - and a new challenging way to develop ourselves as a company, and especially within the design process.

Our inspiration for this collection has been very diverse. We have found inspiration from all over the world, we dug into former design periods, we looked into art, and to our surroundings to find out how people live and use their furniture.

We like to experiment with techniques we haven't used before, we like to combine materials in ways that are new to us and of course we love colours and exploring new ways of using them!

Without further ado - we hope you will love our AW21 collection as much as we do!

Fair overview

271

With the past year's challenges, creating a safe space in your home is important for your wellbeing. Make pillow forts and enjoy precious "me time" in your living space.

Working from home is more relevant than ever. Let your creative juices flow by hiding any clutter in our great organisers and surround yourself with inspiring colours.

After a long day, there is nothing better than kicking off your shoes and snuggle up in a big chair - enjoy a calming cup of tea, while your worries wash away.

A bathroom isn't just a practical necessity, but foremost a sanctuary. It's a place to rewind your thoughts and let go of the day thus far. Make it your own by adding colourful towels, to brighten up your days.

TEXTILES
